A Small Outlay With Large Possibilities

How to Boom Your School Book Business

Booksellers can add to the volume of their business materially by developing carefully the sale of school books in their territory. While the margin of profit appears to be small it must be kept in mind that many schools, especially private schools, colleges and universities, order in quantities; the sale-season, though short, is "snappy" and there is a minimum of danger only in accumulating "dead" stock. When you make a customer for school books, be he the school principal or pupil, you have a customer for other supplies as well and very often you form business friendships with the "book-lovers" of the future.

To aid the bookseller in this branch of his business, we publish yearly an up-to-date "Educational List" containing the titles of current school books and their prices, together with a classified index of subjects. This catalogue we supply at a very low rate in quantities with the dealer's own imprint on front page—cheap enough to warrant any bookseller distributing it among all the educational institutions in his territory.

TERMS FOR IMPRINT EDITIONS
